ABOUT FOUR POINTS TECHNOLOGY

Four Points Technology, LLC is a Service Disabled Veteran Owned Small Business (SDVOSB) dedicated to providing IT Products and Professional Services to the Federal Government. Four Points Technology offers solutions that support a wide variety of business initiatives specifically suited for Government organizations. Working with Four Points Technology not only ensures that our clients can fulfill their technology needs, but as a Small Business and SDVOSB, purchasing goals are easily met, as mandated by the Federal Government.

Four Points Technology's management team has over 100 years of IT experience providing technical and business solutions to the Federal Government. By leveraging our well-established relationships with major vendors, suppliers, and partners, Four Points Technology provides customers with custom solutions to meet their unique needs. Four Points Technology is committed to providing timely delivery and implementation of all solutions with exceptional customer service and support.

PROFESSIONAL SERVICES

For many businesses and government agencies, it has become increasingly difficult to stay ahead of the latest technologies, security threats, and networking challenges. Four Points Technology can support your business with our suite of professional services that minimize these IT challenges. Instead of wasting valuable resources struggling to keep your PCs, servers, email, networks, and Internet services up, running and current...trust your IT Professional Service needs to Four Points Technology.

We offer a broad range of Professional Services, from Software Design and Development Services to COOP and Disaster Recovery. Our experience and focus on the Federal Government helps us understand the unique Information Technology requirements in each agency.

We work hand-in-hand with you to assess your current needs and anticipate future demands, from an overall strategic viewpoint down to tactical, project specific requirements.
