

CABLE MANUFACTURING BUSINESS

Developers of Armored Shield™ and Armored SPON™

Why Cable Manufacturing Business

- Founded in 1998 in Huntington Beach, California, CMB has a solid history of serving government agencies and private sector enterprises.
- CMB works directly with partners who sell cable infrastructure solutions to end users. We do not sell through a distribution channel, which means, more profit for our partners and a better price for end users.
- CMB has been awarded the prestigious “Keeping America Strong” award for its work with the Federal Government for the war on terrorism and Operation Enduring freedom.
- For the third year in a row Cable Manufacturing Business, Inc. made the Inc 500/5000 Fastest Growing Companies. In 2010 Cable Manufacturing Business, Inc. was ranked #17 out of the top 100 fastest growing Computers & Electronics companies and 1716 of all companies in the nation.
- All of our over 5000 product offerings are trade compliant and certified to meet, or exceed government requirements.
- CMB has the ability to provide basic cable infrastructure solutions, as well as customized solutions to meet diverse end user requirements.

■ CMB is a leader in Green Technology focus areas, such as, GPON (Gigabit Passive Optical Network).

- CMB has a patented strategic Armored Shield™ Armored SPON™ (Secure Passive Optical Network) solution which provides unprecedented flexibility and security in highly classified / confidential areas. These environments require the speed of fiber optics combined with robust security mechanisms for voice, video, and data applications.
- Our Warrior Partner Program is designed to help our partners drive growth and profitability in their business, while providing end users with well trained professionals.
