**FOR IMMEDIATE RELEASE**

**MIR3 Partners with Four Points Technology to Provide Intelligent Notification Services to Federal, State and Local Government**

***Four Points is GSA Partner for MIR3 Products and Services***

**San Diego, California – November 8, 2004**– MIR3™, the technology leader in Intelligent Notification™ solutions, today announced that the company has partnered with Four Points Technology, a Fairfax, Virginia-based provider of hardware, software and integration services to Federal and State government agencies. According to the agreement, Four Points is a GSA schedule holder for MIR3's Intelligent Notification solutions, which are based on a versatile, rules-based notification platform that streamlines the dissemination of time-urgent information to and from any communications device.

MIR3's partnership with Four Points will allow the company to utilize Four Points' GSA schedule contract and sales expertise with public sector agencies and non-profit organizations. The partnership also allows MIR3, with assistance from Four Points, to further penetrate the government market. Many agencies at the federal and state level, including the City of Miami, Louisiana's Calcasieu Parish Police Jury and the County of Orange, California, have already chosen MIR3's Intelligent Notification technology for emergency communications to meet Homeland Security and public safety initiatives.

"We are extremely pleased that Four Points has agreed to be our GSA partner," said Margi Schmidt, MIR3's Vice President of Business Development. "Not only do they bring a great deal of software and integration expertise to our combined sales efforts, but their status as a GSA-certified Service-Disabled Veteran Owned Small Business helps to expedite the sales cycle into government agencies at the state, federal and local level. This ultimately benefits the customer with faster deployment of emergency communications which could be critical to saving hundreds or thousands of lives."

Four Points Technology is a Service-Disabled Veteran Owned Small Business company (SDVOSB) dedicated to providing IT products and Services to the Federal government. Four Points Technology offers solutions that support a wide variety of business initiatives specifically suited for government organizations.
