

AWS MARKETPLACE FOR U.S. FEDERAL CUSTOMERS

OVERVIEW

AWS Marketplace is a digital catalog that US Federal Government customers can use to find, test, buy, deploy, and manage third-party software, data, and services on AWS. Customers can select from thousands of commercial software listings from popular categories such as security, business applications, and AI/ML.

KEY BENEFITS

- **Streamlined Procurement:** Quickly implement third-party solutions meeting regulatory requirements
- **Flexible Pricing:** Access volume discounts and pay-as-you-go models
- **Private Offers:** Negotiate custom terms directly with sellers, including pricing, support, and EULAs
- **AWS Private Marketplace:** Create curated catalogs of pre-approved products for your end users
- **Governance Controls:** Limit purchasing access using AWS IAM controls

PROCUREMENT DETAILS

- **Purchase Methods:** Buy through existing, precompeted Four Points cloud contracts
- **Self-Service Options:** License management and entitlement capabilities through the AWS Console
- **Compliance:** Falls under FAR Part 12 (Commercial Products/Services) and FAR 13.5 (Simplified Acquisition)
- **Competition Requirements:** In scope of competed contracts
- **Vendor Relationship:** Customizable EULAs are direct agreements between government and software vendors

PROCUREMENT BEST PRACTICES

- Include marketplace capability in cloud requirements/SOW documentation
- Establish CLIN structure for tracking Marketplace purchases
- Consider using existing contract vehicles that authorize Marketplace purchases
