

What AWS services are discounted? What is the discount?

Subscribing organizations participating in the Internet2 NET+ Program will receive discounts off AWS' list prices of Services in accordance with the table below.

<u>Service</u>	<u>Discount</u>
<p>xAWS products (at https://solutionprovider.s3.amazonaws.com/Solution+Provider+Eligible+Services+List.pdf) and AWS Professional Services</p>	4.5%
<p>When you join the NIH STRIDES Initiative, you will get effective discounts of up to 17% on overall AWS Cloud Services. Please see the breakdown below:</p> <ul style="list-style-type: none"> ● A flat 12% discount on ALL AWS services except for AWS Marketplace items and Glacier Deep Archive ● A total of at least a 17% discount for S3 AWS Storage Services – Standard, Infrequent Access, Intelligent Tiering, and Glacier (subject to annual review – specific discounts vary based on region and the specific S3 service) ● No charge for AWS Enterprise Support (subject to review every contract year), which reflects a savings of up to 15% for the researchers ● Access to a data egress discount program – the max offset is 15% of total monthly spending on AWS services, which is several times the usage we typically see among our research customers ● Special pricing for AWS Cloudfront ● Discounts on Professional Services ● Full control of accounts in regard to architecture, security & governance 	Up to 17%
<p>Third Party Professional Services (including Reseller)</p>	4%
<p>AWS-Delivered Training</p>	5%

AWS Marketplace Private Offers	Negotiated with Marketplace ISVs on a deal-by-deal basis
AWS Marketplace Standard Offers	None

Unit prices will not exceed AWS' commercial prices that would be available to the customer were they to contract with the provider directly. Current updated provider pricing is available here: <https://aws.amazon.com/pricing/services>. Unit prices will automatically adjust when the provider changes commercial prices. Monthly charges will vary based on the amount of Services used in that month. The customer has complete control of their utilization and can allocate and deallocate resources as they choose and as their needs change.

Egress Discounts. Subject to customer fulfillment of the eligibility requirements (as may be updated from time to time) at <https://aws.amazon.com/blogs/publicsector/data-egress-waiver-available-for-eligible-researchers-and-institutions/>, when requested during the on-boarding process, Reseller shall request the AWS Data Egress Waiver on behalf of the Customer and support the Customer with applying the applicable egress discounts or credits to their management account(s) as appropriate and shall ensure that all accounts under the Internet2 NET+ Program are in data egress fee waiver enabled management accounts unless they are otherwise ineligible. The egress waiver is calculated monthly for each Payer Account and applied to eligible egress charges.
